

# CHECKING FOR LEAKS IS FUN!

Okay, not really.

But it's important and here's why:

It can save water.

It can lower your water bill.

It can prevent damage to your home.

**DETECT-A-LEAK  
WEEK**  
**JUNE 3-9, 2007**

**DON'T WASTE WATER**

**BOARD OF WATER SUPPLY.COM**

**CITY MILL**  
YOUR SUPERHARDWARE STORE

Take time this week to check for leaks in plumbing fixtures, irrigation systems and other equipment on your property. It's easy. Just turn off all water faucets and other water-using fixtures, then check your water meter to see if the dial is moving. If it is, bingo! You have a leak. Call a plumber and have the leak repaired as soon as possible.

Visually inspect faucets, pipes, and other fixtures. For toilets, use dye tablets to check for leakage. Free dye tablets are available from the BWS, City Mill or at Satellite City Halls.

Finally, examine your lawn for wet spots where grass seems greener. This could indicate a broken underground pipe, which is also serious stuff.

## FREE HOME LEAK CHECK!

We know, it sounds too good to be true. 50 single-family homes on Oahu will receive free leak detection assistance\* from the Board of Water Supply.

For more information, call **748-5041** or log on to [www.boardofwatersupply.com](http://www.boardofwatersupply.com)

Entries must be post-marked by June 9, 2007 to be eligible.

This water conservation project is brought to you by the Board of Water Supply, with support from City Mill, the Sierra Club, and the Chamber of Commerce of Hawaii. \*Underground leak detection not included.

Fill out this entry form and mail it to:  
**Board of Water Supply Communications Office**  
**630 S. Beretania St., Honolulu, HI 96843**
